

IDENTIMARKERS

IDENTIMARKERS are high quality marker sleeves for identification of cables, hoses & pipes. Pre-printed to your particular requirements on our range of specialist marking equipment, including the most up-to-date computerised machines.

Quality - Customer satisfaction is our aim - Quality, Efficiency and Reliability are at the forefront of our business planning. Our entire production is Quality Assured to BS EN ISO 9002.

Economical - You should have reduced costs in terms of both labour and inventory. IDENTIMARKERS - customised and delivered next day - are often much cheaper than the cost of the unmarked tube pieces required for in-house systems!

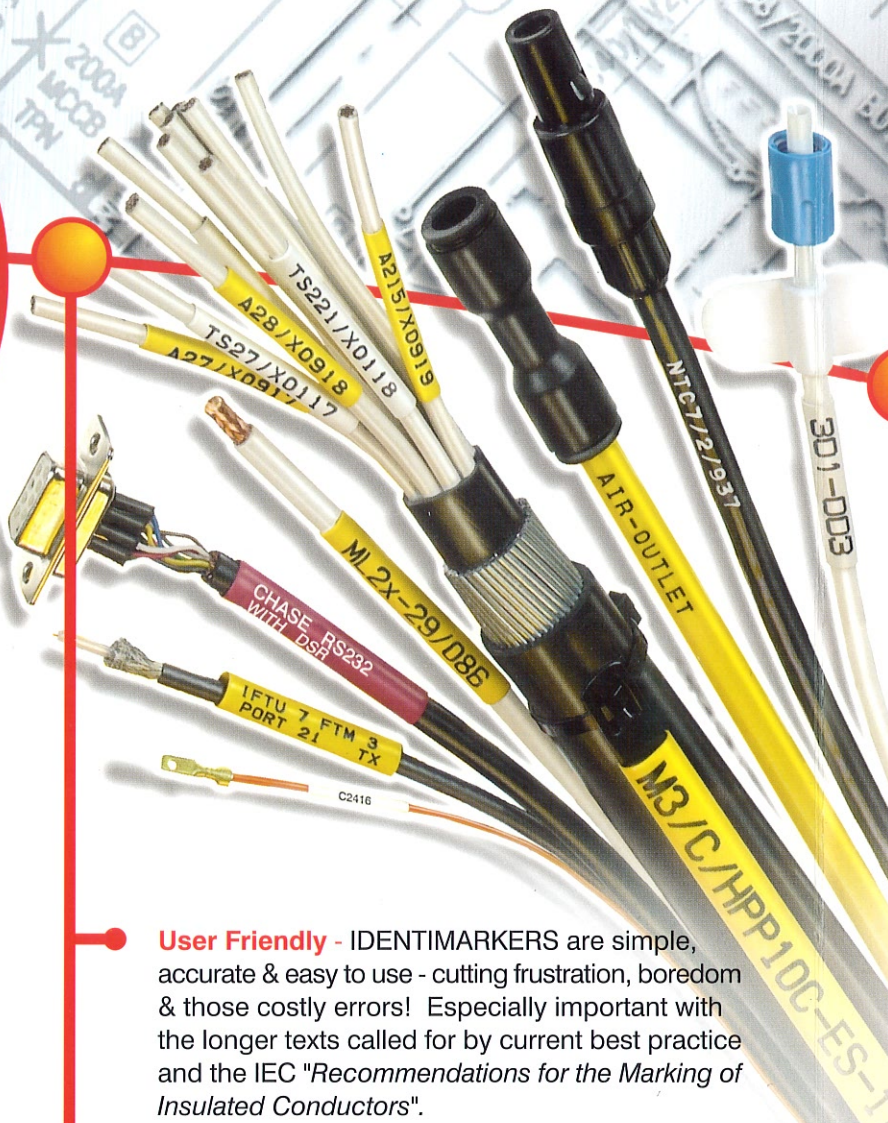

IDENTIMARKERS add value to your product as well as being smarter & easier to read than traditional markers.

Flexible - There is usually no minimum or maximum order quantity. Why buy 1,000 when you only need 20? We have the capacity to supply millions, and are flexible enough to produce just one!

Speedy - We provide a very fast turn-around; our helpful staff can take your orders by e-mail, fax, post or over the phone - we can often deliver your order next day.

Next Day?

We usually despatch within **3/4 working days**
24 HOUR service often available - no surcharges

User Friendly - IDENTIMARKERS are simple, accurate & easy to use - cutting frustration, boredom & those costly errors! Especially important with the longer texts called for by current best practice and the IEC "Recommendations for the Marking of Insulated Conductors".

Customised - We can include texts of single or multiple lines, one or two-side marking, and even logos & special texts.

Tubing - There are two main types of tubing used; either heat-shrinkable Polyolefin or non-shrink (sized) PVC.

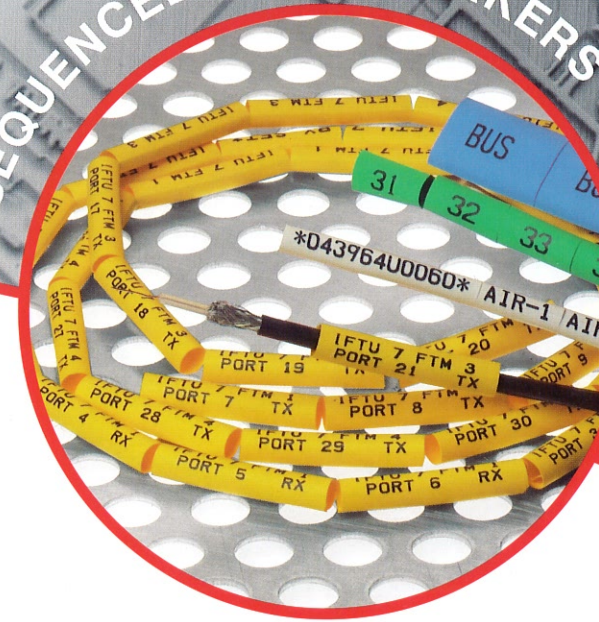

Specifications - Tubing is available to various specifications including UL, Military, Zero-Halogen, Dual Wall Adhesive Lined and Commercial grades to suit your requirements and budget.

Sizes - from 1.2mm to 101.6mm inside diameter and almost any length, depending on the text; clean cut or semi-severed.

Colours - We have an extensive range of colours & clear. White, Yellow, Black, Red, Green & Blue are the most popular.

Economical, Flexible, Speedy & User Friendly - IDENTIMARKERS are "The Mark of Quality".

SEQUENCED IDENTIMARKERS

SEQUENCED IDENTIMARKERS are strings of high quality semi-severed marker sleeves produced on our range of computerised machinery. One-off panel requirements or multiple repeats all benefit from the speed & accuracy this service provides.

Sequenced - Your complete schedule of IDENTIMARKERS will be produced semi-severed and packed in the order you want them to be fitted.

Serialised - Decimal or Hexadecimal - with or without prefix &/or suffix are a speciality, just let us know your requirements.

Availability - NEXT DAY service is often available, 3-4 days is our standard service, scheduled deliveries welcome.

Economy - IDENTIMARKERS reduce costs. Often cheaper than alternative identification systems, they are also more quickly and easily fitted, giving substantial labour savings.

Marking Schedules - We can convert identification texts from a spreadsheet, text file, or perhaps downloaded from the CAD system to an ordering schedule, sent to us as a (PC) file, by e-mail or disc for complete accuracy, improved quality and discounted prices. Computer text files (see opposite) give us production savings, which are passed on to the customer as a discount!

NB. We can still work from hand-written or typed lists and drawings if more convenient.

Examples of marking schedules:

TEXT (7.0 dia yellow PVC tube)	QTY.
ACF121 / 15	2
BDE123 / 16	4
XYZ124 / 17	45
PC1	250
24V +	125
SPARE	16
M3 / C / HPP10B - ES - 1	2
TEXT (3.2 dia white Heat-Shrink tube)	QTY.
C / E6-PSLL-132A / 1	1
NO / E6-PSLL-132A / 2	1
NO / E6-LSL-624 / 26	1
NC / E6-PDSH-627 / 27-321458	1
+ / E6-TB-626 / 1	2
- / E6-JB-9 / 1	1
ABC120 / 14	4

Save the schedule as a (PC) computer file in one of many formats including:

Microsoft Excel (*.xls) **Microsoft Word** (*.doc)
Text ASCII (*.txt) Lotus 1-2-3
Dbase Borland Quattro Pro

Send the File by e-mail to sales@identimark.co.uk (or on disc) for conversion, alternatively, print out & Fax or post your schedule for our operators to key-in.
